**Medical Weight Loss Clinic Celebrates 23 Years**

The experts at Medical Weight Loss Clinic have been helping their patients lose weight and keep it off for 23 years. The first Medical Weight Loss Clinic opened its doors in 1986. Today they have grown to locations across Michigan and Northern Ohio. They have helped tens of thousands of people to gain control of their weight and their lives. The programs at Medical Weight Loss Clinic focus upon helping patients develop healthy eating habits. All of their program use regular grocery store foods and feature unlimited visits to the clinic for nutritional guidance and individual support.

“We offer a variety of weight loss options, which allows us to design a program that meets the patient’s specific needs” says Alberta Lipinski LPN. Alberta has been a nursing supervisor with Medical Weight Loss Clinic since 1986.

“Most people who come to our clinics have tried to lose weight on their own or with other weight loss programs. They are looking for a permanent solution for their weight and are ready to make that commitment and our staff is there to guide them all the way.”

At Medical Weight Loss Clinics patients lose weight without fad diets or dangerous surgeries. The programs are designed based on an individual’s profile. During an initial visit to our clinic the staff will perform a medical evaluation and develop the right program. Medical Weight Loss Clinic offers programs designed to make dieting easier for those who have struggled to lose weight.
