Detroit Piston Tayshaun Prince and Strength and Conditioning Coach Arnie Kander joined Medical Weight Loss Clinic to address childhood obesity by delivering an interactive "Be Fit" assembly to 400 students at Vandenberg World Cultures Academy, Tuesday, January 11, 2011 from 2:30-3:30 p.m. Prince and Kander demonstrated fitness techniques and discussed how to maintain a healthy diet. Pistons dance team Automotion and Palace Patrol also performed and students were awarded prizes based on answering Pistons health trivia questions.

This event was in conjunction with NBA FIT Live Healthy Week, which tipped off on Tuesday, Jan. 4 and continued through Jan. 12. During that week, all 30 teams and their players join community members and partners to highlight the importance of living an active, healthy lifestyle through grassroots programs and events, special oncourt apparel, in-arena health screenings and online programming.

Vandenberg World Cultures Academy is located at 16100 Edwards Avenue, Southfield, MI 48076.

Vandenberg World Cultures Academy students kindergarten through eight experienced an interactive assembly orchestrated by Year-Round Hoops Director Aaron Smith. The Pistons selected Vandenberg World Cultures Academy because of the various health initiatives the school provides students including implementing fresh fruits and vegetables for lunches and developing an after-school cooking class that allows students to conduct research on nutritional facts and calorie intake. Additionally, five other pre-identified schools in Michigan that incorporated similar health programs have been invited to The Palace to receive in-arena recognition during January Pistons games.

Dear Detroit Pistons,

Thank you so much for the tickets, my family and I appreciated it.

The game was great and I knew you'd win. I loved the fire and music. You guys had the best activities and you can really play basketball. I liked how you made the sixers go home crying to their moms. Thank you for the tickets.

Your fan,

Toni C.
